

Graphics and signage for **BIG** ideas

HELLO

We have around twenty years experience of printing graphics and signage for installation, and it is this knowledge and expertise that enables us to deliver the quality of service we have become renowned for across the UK.

Adrian Rushton
General Manager

/JUST RETIREMENT

THIS EXCITING AND DIVERSE PROJECT REQUIRED US TO PRINT AND INSTALL A SERIES OF GRAPHICS ON A RANGE OF DIFFERENT SUBSTRATES FOR VARIOUS SURFACES

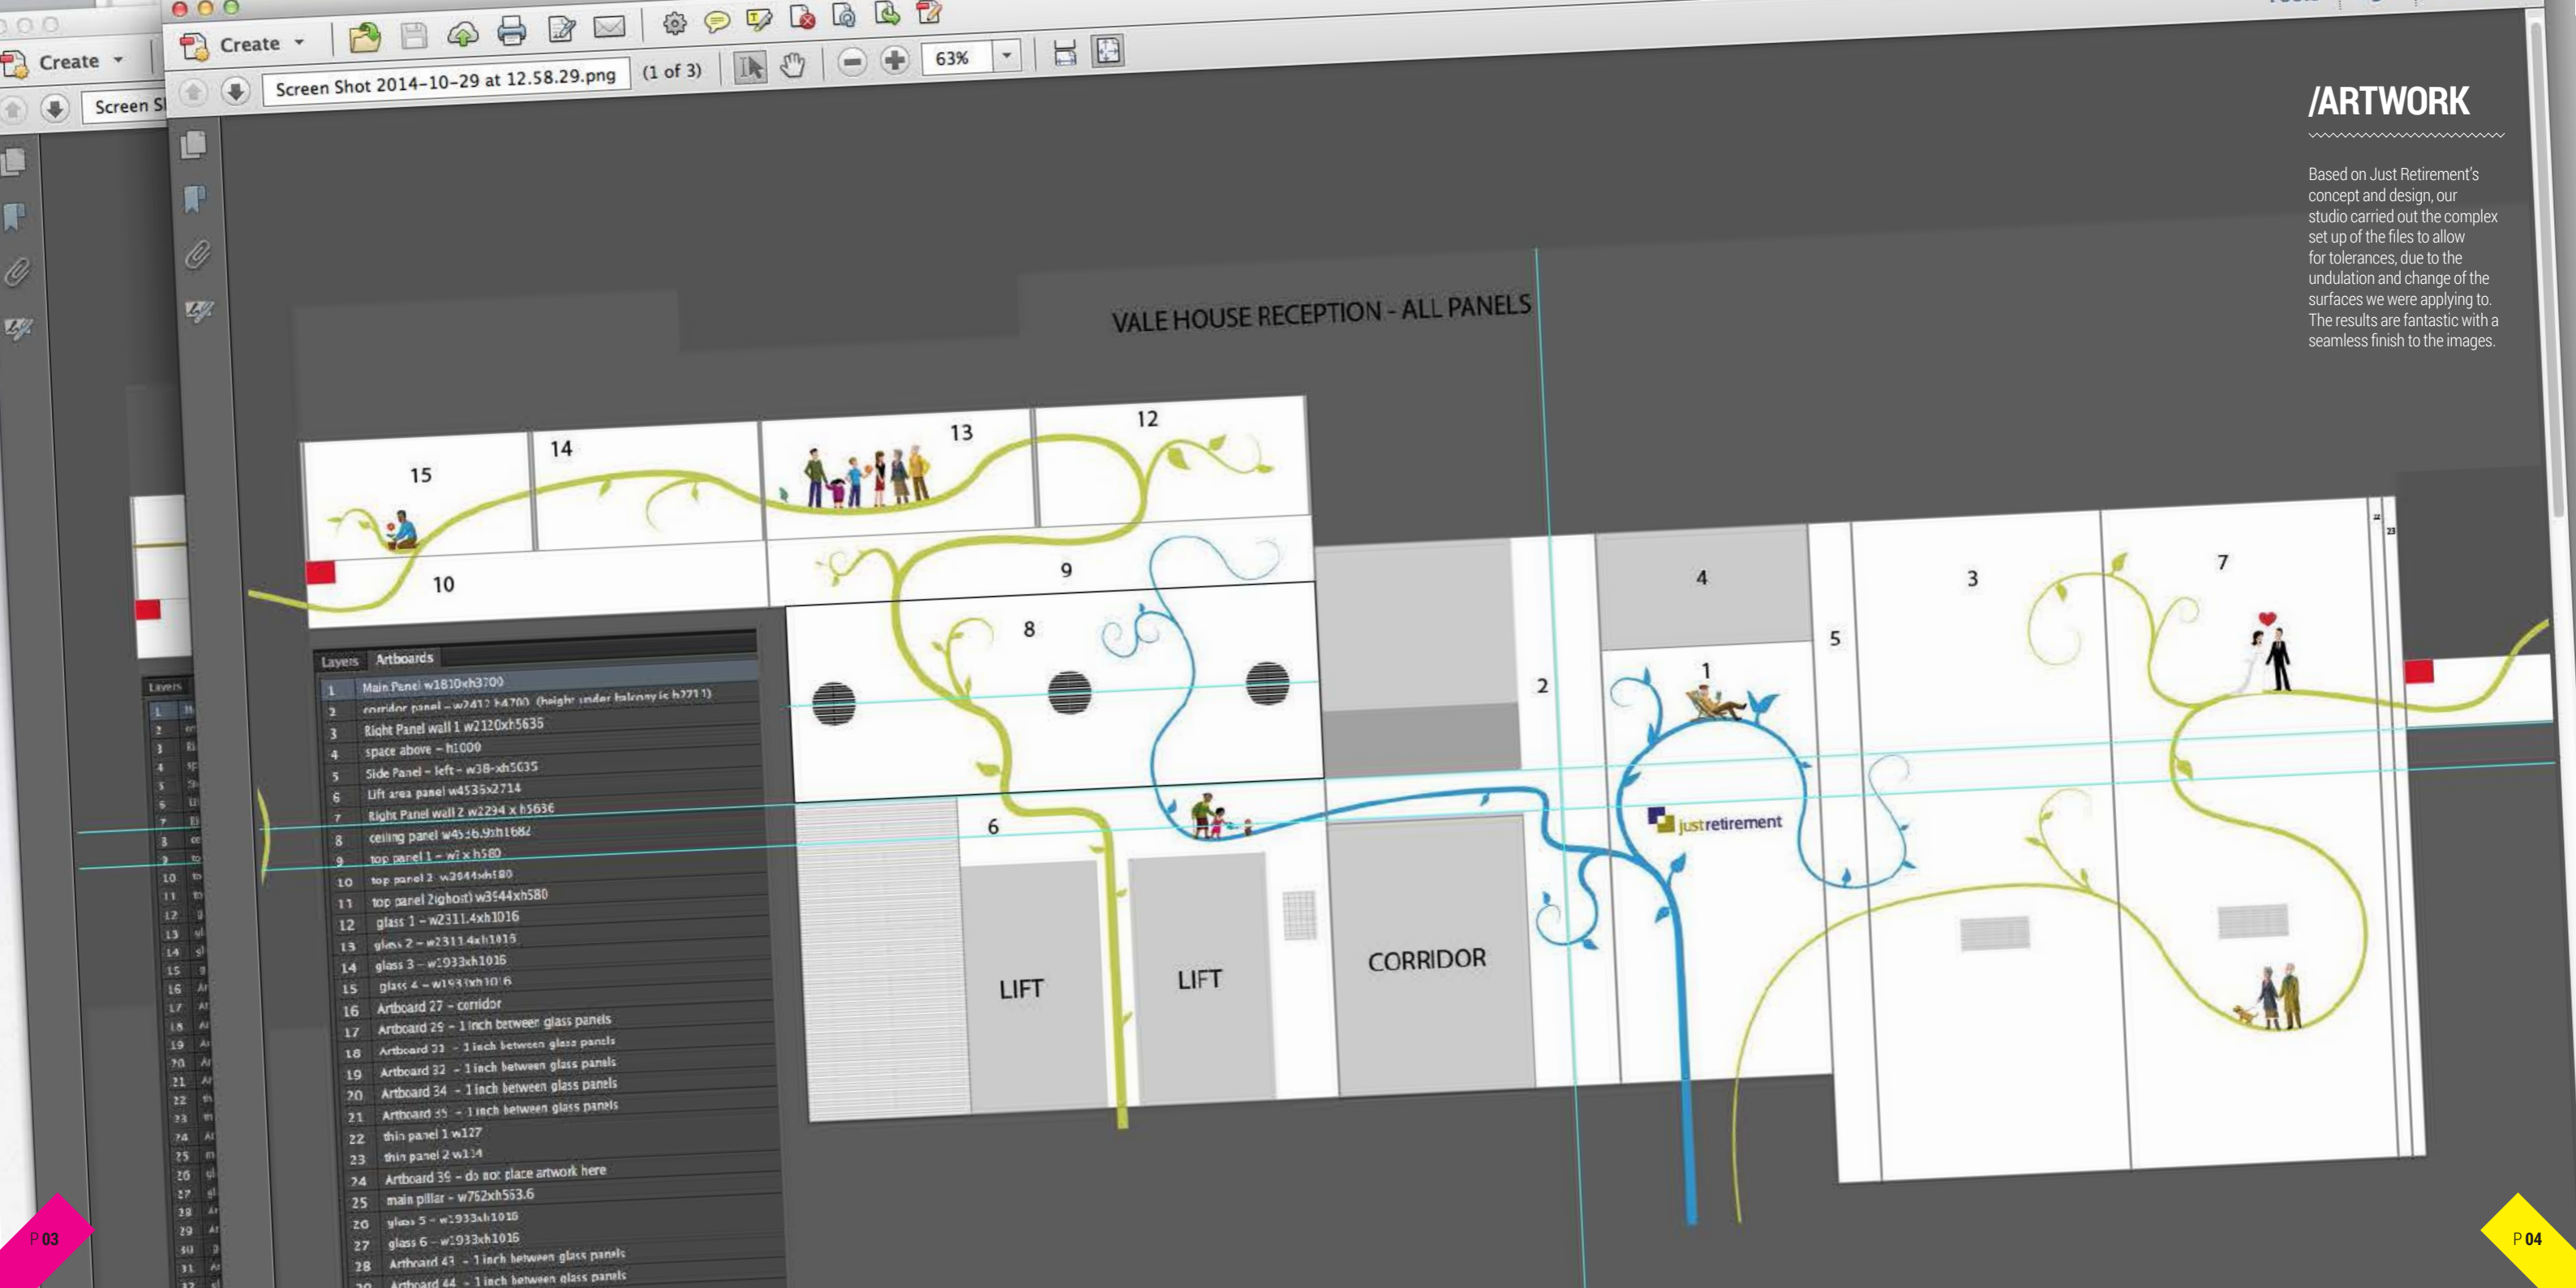

Print Management company Mosaic asked us to help them deliver an ambitious graphic project for their client Just Retirement's large reception area. Their designs were an intricate series of vines that crept around the room across glazing, canvas prints, walls and ceilings.

We printed to a combination of materials in order to apply the graphics to different surfaces which linked the design together to create an instant wow factor.

The installation process required us to use internal scaffold towers and we worked out of hours within a small time-frame due to the 24 hour use of the area we were fitting. We also carefully removed existing graphics and cleaned down the areas prior to the new graphics being applied.

VALE HOUSE RECEPTION - ALL PANELS

/ARTWORK

Based on Just Retirement's concept and design, our studio carried out the complex set up of the files to allow for tolerances, due to the undulation and change of the surfaces we were applying to. The results are fantastic with a seamless finish to the images.

- | Layers | Artboards |
|--------|--|
| 1 | Main Panel w1810xh3700 |
| 2 | corridor panel - w2412 x h4700 (height under balcony is h2711) |
| 3 | Right Panel wall 1 w2120xh5636 |
| 4 | space above - h1000 |
| 5 | Side Panel - left - w38-xh5035 |
| 6 | Lift area panel w4535x2714 |
| 7 | Right Panel wall 2 w2294 x h5636 |
| 8 | ceiling panel w4536.9xh1682 |
| 9 | top panel 1 - w1 x h560 |
| 10 | top panel 2 - w2044xh180 |
| 11 | top panel 2(ghost) w3544xh580 |
| 12 | glass 1 - w2311.4xh1016 |
| 13 | glass 2 - w2311.4xh1016 |
| 14 | glass 3 - w1933xh1016 |
| 15 | glass 4 - w1933xh1016 |
| 16 | Artboard 27 - corridor |
| 17 | Artboard 29 - 1 inch between glass panels |

| 19 | Artboard 32 - 1 inch between glass panels |
| 20 | Artboard 34 - 1 inch between glass panels |
| 21 | Artboard 35 - 1 inch between glass panels |
| 22 | thin panel 1 w127 |
| 23 | thin panel 2 w134 |
| 24 | Artboard 39 - do not place artwork here |
| 25 | main pillar - w752xh553.6 |
| 26 | glass 5 - w1933xh1016 |
| 27 | glass 6 - w1933xh1016 |
| 28 | Artboard 41 - 1 inch between glass panels |
| 29 | Artboard 44 - 1 inch between glass panels |

/GLAZING

This optically clear printed window film on the mezzanine glazing allowed the level of show-through that our client had imagined. This fabulous product is totally clear and gives the impression that the graphics have been printed directly to the glass.

FABRIC

Our client needed a versatile graphic system that would allow them to easily update the message, whilst hiding an unused window beneath.

Our solution was to create a FabriFrame system using dye sublimated fabric fitted into a powder coated frame that was matched to the room's existing paintwork.

everyone deserves a
justretirement

Graphics and signage for BIG ideas

/MATERIALS

Specialist CAD cut wall vinyls and window films were carefully installed to create a seamless graphic through the whole interior.
